EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 20-24 directed to non-elected without traverse. Accordingly, claims 20-24 are cancelled.

Further, upon the examination, claims 9-19 have been rejoined since they depend on the allowed claims. Accordingly, claims 1-19 and 25-29 are pending for examination.

Allowable Subject Matter

Claims 1-19 and 25-29 are allowed.

Reasons for Allowance

Claims 1-19 and 25-29 are allowed since there is no prior art of record that teaches or suggests a repeated pattern layer for a pixellated light modulating device comprising a relationship of various elements as claimed with the specific allowable subject matter cited in the following claim:

Claim 1:

- a plurality of switching regions within each repeat unit, wherein each switching region is arranged to impart one of at least two predetermined electro-optic characteristics to said light modulating medium wherein the repeat unit length is

Art Unit: 2871

less than half the length of the minimum pixel dimension and wherein each pixel contains areas of each electro-optic characteristic in substantially the same relative proportion as any other pixel

Claims 2-19 and 25-29 are allowed since they depend on the allowed claim 1.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bryan-Brown et al (US 2003/0063246) disclose a bistable nematic liquid crystal device provided with a surface alignment grating on at least one cell wall that permits the liquid crystal molecules to adopt two different pretilt angles in the same azimuthal plane the arrangement being such that two stable liquid crystal molecular configuration can exist after suitable electrical signals have been applied to the electrodes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
